

NEW SCHOOL BOARD RE-ELECTS MCCLURE

New Members Take Oath of Office and Elect Officers for Year.

MEETING ON MONDAY

Will Take Up Question of Quarters for Next Year; Is Serious Matter.

After Dr. J. M. Temple, H. M. Welch and Dr. N. W. Mayginn had presented their election certificates and had taken the oath of office, the new school board met in the office of the superintendent of city schools Tuesday night and re-elected H. O. McClure as president of the board. This is the third year Mr. McClure has served in that capacity.

Dr. Mayginn was elected to succeed A. A. Bumgarner as vice-president and Ray S. Fellows was re-elected secretary of the board. The retiring members of the school board are A. A. Bumgarner, Herbert D. Mison and G. H. P. McElwain.

On a motion by J. R. League, it was decided that a special committee be appointed to name the standing committees for the board, taking the authority out of the hands of the president. A vote was registered on the ballot and President McClure cast his decision in favor of the motion. Mr. McClure then appointed R. R. Lockwood, Ray S. Fellows and N. W. Mayginn as members of this committee. The committee will meet in Mr. Lockwood's office tonight for its work.

Held Special Meeting.
It was decided to hold a special meeting of the board next Monday night to take up several important items in connection with the opening of school next fall. This is necessary because of the departure of Superintendent Oberholzer before the next regular monthly meeting. Superintendent Oberholzer goes to New York city June 28 to attend the annual meeting of the National Educational Association and will be gone three weeks.

Before the meeting next Monday night the various committees will meet with Mr. Oberholzer and have their recommendations ready for approval at the special meeting. The business before the committee includes the assignment of teachers and other minor details but the most important consideration is that of buildings.

A Flat-Dweller's Stratagem.
Mrs. X.—"Bothered with time-wasting callers are you? Why don't you try my plan?"

Mrs. Y.—"Why, when the bell rings I put on my hat and gloves before I press the button. If it proves to be someone I don't want to see I simply say: 'So sorry, but I'm just going out.'"

Mrs. Y.—"But suppose it's someone you do want to see?"

Mrs. X.—"Oh, then I say: 'So fortunate, I've just come in.'"

LADY, BLINDED BUT CONSCIOUS

Said She Would Turn Blind and Fall When Nervous Spells Came on, Yet Remained Conscious.

Odessa, Fla.—"About 2 years ago," writes Mrs. J. D. Powell, of this place, "I took several bottles of Cardui as a tonic, for I was run down in health. In fact I could hardly do anything at all, could only drag around and couldn't do my work. Life was miserable to me and I knew I must have some relief, as I was so very weak, I would suffer with aching pains in my right side, back and shoulders. I would have such terrible nervous spells, which would come on me, and I'd fall down wherever I was standing. I would turn blind, as though I had fainted yet kept my consciousness. My friend would rub me, and my circulation was extremely poor, and my arms, hands and limbs would be cold."

My friends... recommended that I try Cardui. I began using it and soon both saw and felt a great improvement. My appetite became good. I ate so my husband teased me about it. I could rest well at night, and got so I could do all my housework in a short time. I praise Cardui to all my friends."

If you suffer from any form of womanly weakness or irregularity, try Cardui, the woman's tonic. For sale by all druggists.

CHIEF GETS REPORT OF INSURANCE MEN

Underwriters Find Many Things in Good Condition, but Several Are Not.

Fire Chief Alder and city officials Tuesday morning received from the National Board of Fire Underwriters their report made after an investigation of conditions in this city during April by Engineers C. A. Whitney, H. E. Newell, A. F. Ballou and G. F. Hoag, and in which a complete and detailed review of Tulsa's water supply system, fire department, fire alarm system, fire department auxiliaries, structural conditions and hazardous building departments and conflagration hazards was made, together with recommendations as to the improvements in these several departments.

From the report it is shown that at the time of inspection Tulsa was securing from the four wells in use at that time 700,000 gallons of water daily, augmented by the river supply and that of the other surface wells. It is estimated that the per capita consumption of water by Tulsa, on a based population of 29,000, is 74 gallons daily.

Need More Hydrants.

The report states that the four pumps, with a rated capacity of 15,000 gallons per day, are all in good condition and that the two boilers, with a combined heating surface of 2,720 square feet, are also in good condition. The report states that double the number of hydrants now in service should be installed, although those now in use are of suitable size and are in good condition.

In stating the status of the fire department the report refers to Chief Alder as an able and progressive official and a good disciplinarian. Of Master Mechanic Jack Breen the report states that he is an experienced electrician. The department is efficient and commanded by capable and progressive executives. The chief is complimented on his method of inspections.

CITY DADS MAKE OFFICIAL CHANGES

Replace Department Heads, Amend Drugs Act and Discuss Finances.

Mayor Simmons and the city commissioners Tuesday morning replaced G. W. Foreman, former building inspector with H. E. Kopp, an experienced contractor, Dr. C. E. Walters, city food and inspector, with Dr. P. A. Mangum, and appointed Forrest E. Kopp as draftsman in the city engineer's department, and from amending the process of pure food and drug law and authorizing Finance Commissioner Brink and City Auditor Newkirk to visit Joplin where an investigation of that city's system of accounting will be made.

It was a busy session of the commission and several matters of importance were discussed and acted upon by the city commissioners. During the meeting a committee from the Chamber of Commerce, headed by President McKewen and Secretary Clarence Douglas, appeared before the commission and requested that the city assist in the work of preparing decorations for festive occasions. It was suggested by Colonel Douglas that the city procure a supply of banners, pennants and streamers and that these be used at convention times, the decorating to be done by a member of the Tulsa fire department.

Commissioners Approve.

This matter met with the approval of the commissioners and the city will immediately purchase a quantity of decorations, thus saving the merchants along the principal streets of the city more than \$1,000 a year, a sum which is raised by subscription by the Chamber of Commerce.

The commissioners also took action on petition presented to make demands of the railroads of this city to improve their grade crossings, and they are given sixty days in which to make the needed repairs.

ARREST SLAYER OF 12-YEAR-OLD BOY

Ira T. Whitley Located at Keystone; Says He Is an Orphan.

Ira T. Whitley, the 16-year-old lad who shot and killed Denver Lee, aged 12, at his home at Bruner station Saturday and then escaped, was arrested at Keystone Tuesday by S. R. Morris, deputy sheriff of Pawnee county. Sheriff Woolley searched for the boy along the river at Keystone and left Morris to continue the hunt.

Assistant County Attorney E. Warren yesterday filed an information against young Whitley formally charging him with the murder. He was brought to Tulsa last night and probably will be arraigned today before Justice of the Peace Lee Daniel. The shooting is said to have occurred when Denver Lee told his father he had heard Whitley swearing. Whitley says his home is somewhere in New Jersey and that he is an orphan. He had been working for the dead boy's father for some time before the shooting.

A coroner's jury sitting at the inquest found that Lee had been killed by gunshot wound inflicted with felonious intent to kill and murder.

ANOTHER INDUSTRY LANDED FOR TULSA

Anheuser-Busch Company to Establish "Bevo" Distributing Station.

Announcement was made yesterday that Tulsa is to be the distributing point for this section of the state of "Bevo," the new soft drink being manufactured by the Anheuser-Busch Brewing company of St. Louis.

The local business is being established by Fred Sutton, pioneer Oklahoma City capitalist and real estate dealer, and Jim Bryan, well-known oil man. Mr. Sutton was for 18 years the representative of the big brewing concern in Oklahoma territory and was associated during that time with Mr. Bryan.

"We have secured an adequate building," said Mr. Sutton at Hotel Tulsa last night, "and will open up for business about July 1. Mr. Bryan and myself will divide our time between Tulsa and Oklahoma City."

Messrs. Sutton and Bryan were instrumental in securing \$1,000,000 worth of improvements made at Oklahoma City by the Anheuser-Busch people a number of years ago and also influenced the big brewery to loan \$1,000,000 in that city at a low rate of interest. It was with this money that the first big building in the capital was erected. It was the first "cheap" money ever loaned in the state.

The magnanimous spirit of the concern probably will be felt in Tulsa before long.

TULSA WOMEN TO LEARN FIRST AID

Eleven Organizations Will Gather to Discuss Plans for Preparedness Move.

Elementary training in first aid to the injured for the women of Tulsa, in order to correlate them with the national movement for preparedness, will be inaugurated at a joint meeting of the eleven organizations in Tulsa which are members of the federation of women's clubs Saturday afternoon.

While the women have no definite war motives in mind, the work will fit them to be of real service in the event of an international struggle in which Americans will be involved. In the meantime it can be used to good effect in times of peace as the care of minor accidents will be treated as much as the more serious wounds.

The movement is at present a local one but it is thought that the Tulsa activities will be the means of spreading the plan throughout the nation by means of the National Federation of Women's Clubs.

The course of instruction will be discussed at a meeting of the eleven women's clubs of the city at the public library at 3 o'clock Saturday afternoon, which will be presided over by Mrs. C. E. Lahman, who is president of the general council of women's clubs in Tulsa.

It is the plan to secure prominent physicians of Tulsa for lectures to the ladies. Demonstrations also will be made at every session and after the instruction has advanced further the women will be coached in actual practice of dressing wounds, setting bones and other preliminary steps.

The Young Women's Christian association organized a club last year which received similar instruction, leading to an examination by the Red Cross association. The course will be renewed next winter, after
